

Our Mission

Women's Council is dedicated to advancing and promoting the Waste and Recycling Industry, along with giving back to our member's companies through education, networking, professional development and the award of academic scholarships.

Industry Networking, Leadership Development, Professional and Social Opportunities

Members connect with one another both professionally and personally through a variety of outlets. Attending Council meetings and events, or joining one of our committees is the most advantageous way to collaborate with fellow members.

Events & Programs

- Membership meetings held regionally, at WasteExpo, and NWRA's Executive Leadership Conference Roundtable
- Annual Fall President's Tour
- Informal member-to-member mentoring
- Professional Development webinars

Committees

- **Fundraising:** Maintains financial stability of the Council and organizes efforts to fund Council programs such as scholarships and the Annual Fall Tour
- **Membership and Marketing:** Attracts and retains Council members, and increases opportunities for interpersonal communication
- **Professional Development:** Plans and executes the Council's educational and industry offerings
- **Scholarship:** manage the Council's annual academic scholarship program

Accomplishments

- Over \$275k raised and awarded in scholarships
- Industry Internship Toolkit - [free download](#)
- WasteExpo C-Suite Spotlight Sessions
- Waste & Recycling Coloring Book - [free download](#)

Join Us **We want to help you succeed.**

\$275,000

in scholarships awarded to date!

NWRA Women's Council

Developing talent for the industry

About our scholarships

Our scholarships are made possible by the generous donations from our member companies and the hard work of the Women's Council. Scholarships are offered annually, and **only** to NWRA member company employees and their dependents who wish to study and pursue a career in the waste and recycling industry. If you or anyone in your network qualifies, please pass this along!

Spread the Word

NWRA member company employees and their dependents are eligible.

All academic levels welcome:

- High school graduates
- Returning students
- Trade school students
- Community college students
- College/University students
- Graduate level students

It takes all career fields to work in the waste and recycling industry:

- Mechanics
- Accountants
- Human Resources personnel
- Operations personnel
- Drivers
- Sales representatives
- Engineers

Scholarship Statistics

55

 Deserving students have been recipients of a scholarship

Total annual scholarship awards have increased since 2007

Internship Toolkit

[Free download](#)

The waste and recycling industry has a unique opportunity to provide students, recent graduates and career-changing professionals a firsthand experience in creating a healthy and stable career in this industry. This free Internship Toolkit (Handbook and Journal) can assist companies in addressing workforce shortages, promoting careers within the industry and helping groom the professionals of tomorrow.
